### **REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance: Independent claim 1 is now allowable due to the inclusion in the claim of the controller adjusting ram air flow based on a temperature sensor signal. In the Leigh reference, the ram air flow is not disclosed as adjustable. Independent claim 23 is now allowable due to the inclusion in the claim of a shroud enclosing the air separation module and receiving exhaust air. In the Leigh reference, no such shroud is disclosed. Independent claim 24 is allowable because the Leigh reference does not include in its method of controlling flow the step of maintaining the oxygen flow at or below 12% for a majority of flight conditions and allowing the oxygen flow to exceed 12% for a minority of flight conditions. In addition, there is no reasonable motivation in the prior art of record to modify the Leigh method to include this step. Independent claims 32 and 34 are allowable because Bragg does not teach an ejector which mixes gases (the Bragg device instead aspirates a gas into the liquid fuel), and there is no teaching in the art of record to employ such an ejector in the Leigh device.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Peter T. deVore whose telephone number is (571) 272-4884. The examiner can normally be reached on Monday to Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Justine Yu can be reached on (571) 272-4835. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
